

Ontario/Jiangsu Student Exchange Summer Research Program 2019 Application

Application Instructions

The complete application consists of:

- This application form (both pages), completed and printed out, and then signed by you.
- A brief statement expressing your reasons for wishing to participate in this international program and an outline of your research interests.
- If available**, a letter of nomination from a professor in your home department/program briefly outlining the relevance of the visit for your program of study, the reasons for nominating you, and, if appropriate, the kind of credit you might receive for the work done in China.
- If available**, a letter (or print-out of an email) from a professor at a Jiangsu university stating a willingness to host you in a research project. The letter should indicate the precise duration of the proposed research visit and outline the activities in which you will be engaged.

Note: It is understood that there may not be an existing research link between your university and a university in Jiangsu. In that case, the OJS will work with you to establish an appropriate placement with a professor at one of the participating Jiangsu universities. In the section on Summer Research Plan on page two of this application, please indicate not available.

- Your own statement of a) what experience qualifies/prepares you to undertake the work outlined by the proposed host professor, and b) specifically how you expect the experience in China to contribute to your academic/professional development.

Submission of application documents

Your complete application must be submitted to the International Student Exchange Office of your home university (not directly to OJS or to the proposed host university). Each Ontario university determines its own deadline for the submission of applications.

Following participation in the Summer Research Program, you are required to submit a report on your activities and experiences in Jiangsu.
